Having realized there were not many treatment facilities in the area, Jerry and Peg Diehl had a vision of opening a treatment facility to help those struggling with addiction. Their vision became a reality on June 10, 1974 when Seabrook House first opened its doors offering drug and alcohol treatment services to members of the community. With a wide variety of treatment options available and over four locations in the New Jersey region, Seabrook House is proud to be a recognized leader in providing exceptional drug and alcohol addiction treatment.

Seabrook House is an internationally recognized, private CARF-accredited addiction treatment center with several locations. The main facility is located in Bridgeton, NJ, convenient to Pennsylvania, New York and surrounding states. Our long term treatment facility for men, Seabrook House West, is located in north central Pennsylvania in the town of Westfield. Our long term transitional living facility for women, Changes, is located on our main campus. In addition, there are outpatient offices in Cherry Hill, Northfield and coming soon to Morristown, NJ. Seabrook House has been helping families find the courage to recover from alcoholism, drug addiction and substance abuse since 1974.
